The Futures In Trades and Technology (FITT) event is an immersive experience, providing a unique opportunity to explore Alberta's industry collaborations, sustainability initiatives, and emerging technologies in energy, technology, and construction sectors. This dynamic event offers interactive exhibits, technical demonstrations, and keynote speeches designed to foster professional growth, build connections, and expand knowledge. It serves as a platform to discover new opportunities in trades and technology. Attendees are encouraged to secure their spots for this limited availability event, offering an unparalleled chance to connect with industry leaders and #FindYourFITT in Alberta's energy, tech, and construction industries
